ADMIN DASHBOARD

=Strand Tab=

- ☒ Remove students column

=Teachers Tab=

- ☒ Shows error when editing/updating Teacher information.
 - (The dialogue shows "Error" **pero nagpu-push** through po **yung** page.
Example: I changed my password to 123123123, it will show "Error changing password" but when I tried using it to log in, **gumagana po siya.**)

TEACHER DASHBOARD

=Students Tab=

- ☒ In creating students remove input of username and password because they do not use the system.
- ☒ When creating student it does not appear as added.
 - (Sometimes it does not create student even if all boxes have data; it shows "error creating student".)
 - (Also the guardian's name, middle name, and surname, relationship to guardian, should be **optional** to be filled up.)

- ☒ Move students edit privileges to admin. Only shows handled student information for teacher dashboard.

=Results Tab=

- ☐ Newly added student/s does not appear on results tab.
 - ☐ This must be added manually by the teacher
